ALTOONA SCHOOL BOARD AGREEMENT

- We base our decisions on the best interest of the students.
- We are guided by our Vision, Mission and our Strategic Plan.
- We believe that every employee makes a contribution to the success of every student.
- We conduct ourselves within commonly understood principles of integrity.
- We listen carefully and respectfully to ensure all voices are heard.
- We practice good stewardship of our tax dollars.
- We seek to operate with as much transparency as possible.
- We do not engage in drama or political rhetoric.
- We seek a way around obstacles; reframing from an attitude of “we can’t,” to “how can we?”

Adopted: 9/19/11

Amended: 1/21/13

SPECIAL EDUCATION: AN INTRODUCTION

If a child has a disability, special education can help that child learn. Parents and educators work as part of a team to determine if the child qualifies for special educational services. If the child qualifies, the team will make a written plan for the child called an **Individualized Education Plan (IEP)**. The team is called an IEP Team.

HOW CAN WE BE OF ASSISTANCE?

- Special Education Resources & Resource Learning
- Parent Connections & Support
- Workshops / Conference Information Resource & Referral
- Transition Information & Resources
- Disability Awareness Information
- Sibling & Peer Issues
- Legislative Updates (specific to education and disabilities)

REFERRAL

A parent, teacher or medical professional can ask the school to determine if a child needs special education services. This is called a **referral**. A referral must be written. It should include the date, state the child's full name, date of birth, grade and school; state that the letter "is a referral for special education" and explain why the child might need special education. See page 4 for more information about the IEP team.

To submit a referral, a letter can be sent to the principal of the school which your child attends or to the School District of Altoona special education director, Alan McCutcheon, 1903 Bartlett Avenue, Altoona, WI 54720.

THE PROCESS

The school:

- has up to 15 business days from when they get a referral to decide if more tests are needed;
- will ask for parental permission if more testing is needed;
- has up to 60 days from when they get parental permission to conduct evaluations and make a determination if the child has an educational impairment and qualifies for special education services;
- will have up to 30 days after a child is found eligible for special educational services to develop an IEP and determine placement (where special educational services will be provided).

SCHOOL NEWS

BACK TO SCHOOL

A new school year means a new grade, new teachers, new goals, and maybe even a new school! In order to help you and your child with special needs, access the list of eight helpful back-to-school tips that will make the transition into a new school year a little easier for you and your child.

readingrockets.org/content/pdfs/BTS_Parents_RR.pdf

EIGHT HELPFUL
BACK TO SCHOOL
TIPS

PARENT RECORD FILE

The record file folder is a way for parents to organize materials to bring to the Individualized Education Plan (IEP) meeting. This folder becomes the Parent Record File.

Within the record file folder are seven tabs which contain information about your child's special education process.

The record file folder is available for any family. Contact your child's teacher or Tara Bellomy to receive a folder.

WORKSHOPS

Workshops and conferences are available for students/parents/guardians throughout the school year. These are usually hosted by the district or in partnership with community partners.

Please contact Tara or the special education office regarding potential workshops or conferences. See the section on pages [31-32, depending on our resource guide] for a listing of popular conferences and learning opportunities.

ELECTRONIC COMMUNICATION

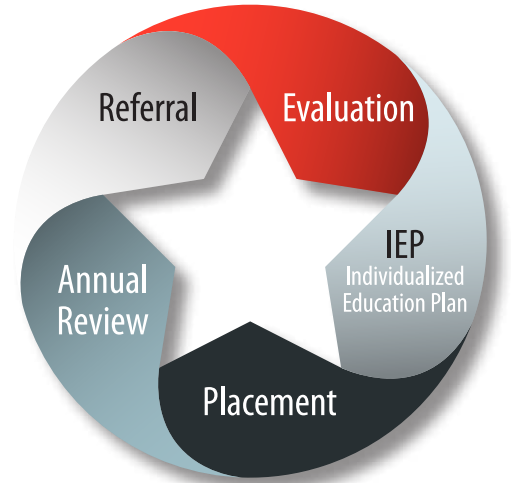

The District uses a student and family record management and contact system. Through this system, families will receive electronic communications such as e-mail alerts about opportunities and offerings for students and parents, plus important information regarding special education and more.

It is very important to ensure that accurate family contact information is provided to your child's school so that you receive these communications.

Steps in the Individualized Education Plan (IEP) Team Process:

1. Referring your child for special education.
2. Evaluating your child. NOTE: Parent/Guardian must sign consent before evaluations can be done.
 - Does your child have an impairment?
 - Does your child need special education?
3. Deciding what services are needed and writing the IEP. The school must have a meeting to write the IEP within 30 days of deciding your child is eligible for special education.
4. Deciding where your child will receive services and sending you a placement notice.
5. Reviewing the IEP and placement at least once a year.
6. Reevaluating your child at least once every three years. You and the school can agree not to reevaluate your child.

Who participates in the IEP Team?

- **PARENT(S).** Parents and the school staff are equal partners on the IEP team.
- **YOUR CHILD.** When the team plans for life after high school and at other times, if appropriate.
- **LEA (Local Educational Agency) REPRESENTATIVE.** A person from the school district who can make sure your child is provided with the IEP services.
- **REGULAR EDUCATION TEACHER.** The child's regular education teacher.
- **SPECIAL EDUCATION TEACHER.** The child's special education teacher.
- **REPRESENTATIVE TO EXPLAIN TESTS.** Someone who can explain the tests taken by your child, typically a school psychologist or a special education teacher.
- **AGENCY REPRESENTATION.** For an older child, someone from each agency that will provide services to prepare the child for life after high school.
- **OTHER.** Other people invited by you or by the school.

RELATED SERVICES

Provided to assist a child with a disability to benefit from special education. The decision of whether a child qualifies to receive related services is made by the IEP (Individualized Education Plan) team.

Early Childhood Services – Educating Young Children (Ages 3-5 Years) With Disabilities

Children are evaluated to determine if they meet the state's eligibility criteria for special education. Special education and related services may provide consultation to staff, direct services to the child, training related to the disability, and other services that are identified in the child's IEP.

A Look at My Child's Development Worksheet

Families are key members of the IEP team. Sharing information about your child at the IEP meeting is valuable to creating an IEP to meet your child's educational needs. A tool, like this worksheet, helps parents to prepare for the IEP meeting.

Wisconsin Rtl Center – Rtl and Family Engagement Online Module

An overview of how Response to Intervention (Rtl) is defined in Wisconsin and research based practices that can be used to involve families in Rtl at their school.

In identifying ways that families and schools can work together in an Rtl system it is important to recognize the need to work with families to support student learning. Research shows that when families and schools work together students do better academically and behaviorally.

IEP (Individualized Education Plan) Tips: How to Prepare for an IEP Meeting

- Review your child's IEP.
- Write down your questions, concerns, and suggestions.
- Bring all important documents to the meeting. For example: school reports, medical records, things you want to be sure to share with the IEP team.
- Invite someone to join you at the meeting as a resource or for support.
- If your child will be attending the IEP meeting, prepare your child for the meeting.
- Reflect on your child's strengths, interests, and challenges. The Positive Student Profile is a great tool for collecting your input for the IEP team.

For assistance in preparing for the IEP meeting, contact Tara Bellomy.

Transition planning generally involves three major activities:

1. Students and families think about goals for life after high school and develop a long-range plan.
2. IEP (Individualized Education Plan) Team designs a high school education plan to ensure that the student will gain the skills and competencies needed to achieve their desired goals.
3. Identifying needed post-school services and supports, and establishing links to them before the student exits high school.

Item #6

Discuss/consider authorizing maintenance to continue to brush hog under the trees along the South Ball Field in Cinder City Park.

The Maintenance Department has been using the brush hog to clean up the “scrub brush” along the North field outfield fence and would like to continue around the South Field fence line. City Staff would like direction from the Committee as to the what level of cutting should be done.

Item #7

Discuss/consider what approach the maintenance department should take regarding the dying trees in Cinder City Park behind Bement Field near the maintenance shop.

As you may recall the pine trees that line the outfield of Bement Field are diseased which travels in the ground attacking the root system. City Staff had a forester come and make a recommendation to remove a certain number of trees to slow the disease. This has not worked and more trees are dying along the ball field fence lines. City Staff would like recommendation from the Committee as to what direction they should take regarding the trees.

The WSAA/WASB School Law Seminar will feature experienced school law attorneys presenting sessions on a variety of legal and related issues pertinent to school board members and school administrators. A special pre-seminar workshop will be offered on Thursday, October 19.

Sessions will provide attendees with the latest information on important topics including: special education and disability rights, health law changes affecting schools, role of the union post-Act 10, new law update and more.

Pre-Seminar Workshop - Thursday, October 19, Sheraton Madison Hotel

- 5:30 pm** **Registration**
- 6 pm** **Dinner**
- 6:30-9 pm** **Board-Superintendent Relations**

The relationship between the superintendent and school board is a key component to effective school district leadership. This session will conduct a careful examination of the board-superintendent relationship, roles and expectations as well as the process for decision-making and evaluation. An overview to the WASB superintendent evaluation system and board member self-assessment will connect expectations with actions.

- *Louis Birchbauer, Wisconsin Association of School Boards*
- *Guy Leavitt, Wisconsin Association of School Boards*

Program - Friday, October 20, Alliant Energy Center, Madison

- 8:30 am** **Continental Breakfast**
- 12-1 pm** **Lunch**
- 3:45 pm** **Adjourn**

Breakout Sessions include:

- *Utilizing a Grievance Procedure and Impartial Hearing Officer Post-Act 10*
- *Today's Special Education and Disability Rights Issues*
- *Transgender Students Law Update*
- *Health Law Changes Affecting Schools*
- *ADA in the Employment Setting*

EAU CLAIRE, Wis. (WEAU) -- CVTC Foundation, Inc. just received a \$133,200 grant from 3M.

Chippewa Valley Technical College (CVTC) says the grant will enable the school to partner with area school districts to build career pathways in manufacturing.

CVTC will partner with Altoona, Durand, Eau Claire Area and Menomonie high schools in the project, called “Building and Sustaining Regional Manufacturing Pathways.”

The grant is designed to help develop the skills and knowledge of high school teachers and students in automation and mechatronics - the technology combining electronics and mechanical engineering.

“Great manufacturing jobs in the Chippewa Valley are going unfilled for the lack of workers trained in the technology of modern manufacturing,” said Jeff Sullivan, CVTC dean of manufacturing.

With the grant, CVTC will purchase flexible manufacturing learning platforms to be used in the high schools and will offer professional development workshops for teachers so they can make the best use of the equipment. CVTC will partner with automation technology manufacturer Festo for the project. The grant will also help develop career mentor partnerships, internships and career exploration opportunities with area manufacturing businesses.

“3M Plant Engineering and 3Mgives approached us in late February to discuss developing academic partnerships in the region to develop interests of students in STEM (science, technology, engineering and mathematics) careers,” Sullivan said. “This endeavor is modeled after a 3Mgives-funded pilot project at Alexandria Technical and Community College in Minnesota.”

The development of automation and mechatronics curriculum in the partner school districts may lead to students who develop an interest in the field to enroll in the Automation Engineering Technology program at CVTC. The program prepares students for high-tech careers in maintaining, installing, repairing, fabricating and designing automated equipment.
