Course Offering Changes 2015-16

Altoona High School Course Offering Changes for 2015-16:

The English department would like to add AP Language & Composition to the curriculum next year.

- **Department:** English
- Course: AP Literature and Composition
- Course Description:

This course would be designed for juniors who have taken Enriched English 10 and who may take AP Literature & Composition but it could also be open to seniors who really do not want to take a Literature intensive AP course. It would replace Enriched English 11.

The AP English Language and Composition course aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods.

The technology department would like to add Welding to the curriculum next year.

- **Department:** Technology Education
- Course: Welding
- Course Description:

Students will be dual enrolled to earn both a high school credit and a CVTC college credit. In this course students will learn the fundamentals of welding processes including OXY/ACETYLENE, ARC, MIG, and TIG. The purpose of this course is to build the personal skills needed to produce industry standard weld beads, set up and operate welding equipment and evaluate and remedy welds problems. In this course, students will have the opportunity to earn a CVTC transcript credit as a college student.

Altoona Middle School Course Offering Changes for 2015-16:

The math department would like to add Algebra 1 to the curriculum next year.

- Department: MathCourse: <u>Algebra 1</u>
- Course Description:

This course will help prepare students for their continued studies in mathematics and help students organize their thoughts to solve mathematical problems that everyone meets from day to day.

The following topics are covered: language of algebra, working with polynomials, factoring, inequalities, functions and relations, systems of open sentences in two variables, rational and irrational numbers, quadratic functions and equations.

The technology department would like to add STEM/Tech. Ed. to the curriculum next year.

- **Department:** Technology Education
- Course: STEM/Tech. Ed.
- Course Description:

Currently, we offer Makerspace/Invent to Learn to 4th and 5th grade students. Within Invent to Learn, students are building creativity skills, problem solving skills, and communication skills. Students in 9th-12 grades are also offered tech. ed. coursework. We would like to add a tech ed. offering for students in grades 6-8 so that there is continuity from 5th grade to high school. Within our 9-12 curriculum the five content areas of technical education are engineering, manufacturing, communication, transportation, and construction. All trades fit under these areas. We'll use backward design in a project based learning format/environment to determine what prerequisite skills an 8th, 7th, and 6th grader would need to be successful in all of the content areas of the 9-12 curriculum. 6th grade would be the start to transition from Invent to learn to project based learning within the content areas.

14. Adjournment

Motion made by Member Phillips and seconded by Member Meyer to adjourn at 6:25 p.m. Motion Carried.

Next meeting date: Monday, January 26, 2015 6:00 pm Altoona Emergency Services Building

Statement of Purpose

This Post-Issuance Compliance Policy (the "Policy") sets forth specific policies of the School District of Altoona, Wisconsin (the "Issuer") designed to monitor post-issuance compliance:

- (i) with applicable provisions of the Internal Revenue Code of 1986, as amended, and regulations promulgated thereunder for obligations issued by the Issuer on tax-exempt or tax-advantaged basis ("Obligations"); and
- (ii) with applicable requirements set forth in certificates and agreement(s) ("Continuing Disclosure Agreements") providing for ongoing disclosure in connection with the offering of obligations to investors, for obligations (whether or not tax-exempt / tax-advantaged) subject to the continuing disclosure requirements of Rule 15c2-12(b)(5) (the "Rule") promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934.

This Policy documents practices and describes various procedures and systems designed to identify on a timely basis facts relevant to demonstrating compliance with the requirements that must be satisfied subsequent to the issuance of Obligations in order that the interest on such Obligations continue to be eligible to be excluded from gross income for federal income tax purposes or that the Obligations continue to receive tax-advantaged treatment. The federal tax law requirements applicable to each particular issue of Obligations will be detailed in the arbitrage or tax certificate prepared by bond counsel and signed by officials of the Issuer and the post-closing compliance checklist provided by bond counsel with respect to that issue. This Policy establishes a permanent, ongoing structure of practices and procedures that will facilitate compliance with the requirements for individual borrowings.

This Policy similarly documents practices and describes various procedures and systems designed to ensure compliance with Continuing Disclosure Agreements, by preparing and disseminated related reports and information and reporting "material events" for the benefit of the holders of the Issuer's obligations and to assist the Participating Underwriters (within the meaning of the Rule) in complying with the Rule.

The Issuer recognizes that compliance with pertinent law is an on-going process, necessary during the entire term of the obligations, and is an integral component of the Issuer's debt management. Accordingly, the analysis of those facts and implementation of the Policy will require on-going monitoring and consultation with bond counsel and the Issuer's accountants and advisors.

Development of Written Procedures and/or Administrative Rule

The Business Manager shall be responsible for developing, maintaining and following written procedures and/or an Administrative Rule for monitoring post-issuance compliance.
